

11 – 15 November 2026 | Grand Hyatt Singapore

11 November 2026
Wednesday

09:00 – 16:00
(GMT+8)

Grand Hyatt Singapore,
Residence 6 Level 3

This hands-on workshop is designed to strengthen both the technical execution and clinical reasoning required for advanced bronchoscopy and interventional pulmonology.

Each station combines short expert demonstrations with deliberate practice, troubleshooting, and discussion of indications, safety checks, and complication management

Workshop Objectives

Develop a structured approach to bronchoscopy planning, device selection, and rescue strategies.

Gain hands-on experience with EBUS systems, biopsy tools, cryoprobes, ablative devices, and airway stents.

Recognise common pitfalls and manage complications through effective teamwork and procedural techniques.
